[Alliance Graphique Internationale](#)

Biography

Born in **1963** in Vorarlberg, Austria. Moved to Vienna in **1981**, studied psychology, history and philosophy. Changed her future path when she dropped out of the studies to become a professional taxi driver. There she learned everything about the streets of Vienna and its people. In **1989**, she migrated to Hong Kong, worked as a fitting model, travel guide and photographer. She learned everything about survival and about things she had never even heard of. Back in Austria in **1992**, gave birth to her lovely son Luc in **1992**. This very first conscious experience of having carried into the world something miraculously wonderful was the ignition spark of her future creative life.

Autodidactic studies and projects in the fields of photography, design and art resulted in the opening of her studio **DESIGN BUERO BAUSTELLE** in **1999**. The range of her creative activities continuously expanded, and today the studio contributes to the fields of corporate identity and communication, governmental and public affairs, science, culture, health and social environments. Since **2013** the main focus is directed on **sustainable innovation** and **nature-inspired design**.

The **DESIGN LABEL BAUSTELLE** stands for conceptual and progressive design, high quality and cross-border-thinking. Project-related cooperation with designers, writers, scientists, researchers, psychologists, cultural managers, media experts and other professionals exemplify the characteristic qualities of the studio. National and international clients as well as self-initiated projects keep the variable teams of the **NETWORK BAUSTELLE** busy.

Projects such as **Little Orchestra**, **Air Cigarette**, **Babylon Design School** and **Alphabet of Life** are internationally renowned, are presented in publications and exhibitions worldwide and have won various design awards, including the Sappi ideas that matter Award.

Since **2004**, she has been basing her educational activities through her faculty position at the University of Applied Arts Vienna. Also in Vienna, she founded **BABYLON DESIGN SCHOOL**, a playground of passion, fantasy and creativity.

She has been a member of **AGI – ALLIANCE GRAPHIQUE INTERNATIONALE** since **2006**. The AGI unites the world's leading graphics designers/artists. Its members encourage knowledge, understanding and design practice among the young and the alliance fosters contacts with other organizations, colleges and schools, government bodies, companies and commercial institutes.

Being linked to the international design community and working with the very future-oriented next generation of young designers provides a thrilling source of inspiration and motivation.

Elisabeth now is truly happy and excited that since 2022 **Luc Kopf** has become the co-thinker, co-designer and co-spiritus rector of the **more-than-design Buero Baustelle**.

Exhibitions / Installations

- 2024** *Blue Gold+ Sharing Water*, Citizen Science Day, European Citizen Science Conference 2024, Natural Historical Museum Vienna (interactive installation)
- 2018** *Alphabet des Lebens – Lernwerkstatt Natur*, Werkraum Bregenzerwald, Andelsbuch
- 2016** *Books*, Taiwan Book Fair Foundation, Taipei, Taiwan (solo exhibition)
- 2016** *Hangeul Calligraphy + Latin Typography*, Seoul Calligraphy Art Museum, Seoul Arts Center, South Korea (group exhibition)
- 2016** *AGI Special Project exhibition*, DDP Seoul, South Korea (group exhibition)
- 2015** *Stage on Paper—2nd International Performing Arts Poster Design Exhibition*, National Centre for the Performing Arts, Beijing, China (group exhibition)
- 2015** *AGI International Poster Exhibition*, Biel/Bienne, Switzerland (group exhibition)

- 2009** Hallo Sonne!, Academy of Visual Arts Leibzig, Germany (workshop)

Voices

Stefan Sagmeister, designer, NY

The mysteriously dark blue Music Box Elisabeth Kopf designed for the Vienna Art Orchestra is one of those very few pieces that blew me away: It not only packages music beautifully, but performs music itself, thereby creating a conversation between design and content I have nowhere else experienced so elegantly ... a conceptual loop that blurs the borders not only between art and design, and between content and packaging, but also between music and object. This is innovation. She is clearly one of that small number of professionals who has risen to the very top of the industry, which is why her work was part of the AGI ‚best of decades‘ exhibit last year in Berlin.

Wang Xu, designer and curator, Guangzhou, China

“Long Life ° Air Cigarette” was the brightest work in the Ink Design Exhibition of the 4th International Ink Painting Biennial of Shenzhen.

Donovan Brien, typesetting.tv, USA

An explosion of originality—and a completely new take on graphic design.

Ahn Sang-soo, designer and educator, Seoul, South Korea

She’s our secret weapon.

Andrew Kner, Print Magazine, New York

Intellectually exciting ... avant garde and down to earth all at the same time!

Christoph Lehrner, New Design University St. Poelten

The problem with her work is, that its impact can’t be measured in numbers.

Nastja Yudina, Design-Journal, Moskau

This is intelligent design ...

Otto Kapfinger, architect, author

Zählt zum Besten, was ich je gesehen habe – nicht nur inhaltlich, sondern vor allem auch in der sehr ansprechenden Art der Darstellung.

Fons Hickmann, UdK Berlin

Her work paralyzes every effort to define design. She keeps going when others quit.

Izumi, Gallery éf, Tokyo

We all say immediately YES to your design, it's so warm, not only sharp and clear.

Marian Waibl, former assistant

I miss your brilliant madness.

Karina Wagenhofer

Der Sturm, wenn sie ausschert, ist gewaltig und weht alles um, was nicht berechtigterweise fest steht.

What people say behind her back

Talks too much ... head in the clouds ... doesn't accept boundaries ... fatalist ...

Alexander Damianisch

... enthusiasierend, wie immer, wenn man mit ihr zu tun hat ...

Steirereck / Viktoria Schott im Namen von Herrn Reitbauer

Die Website, welche Sie Ihm geschickt haben ist einfach wundervoll. Die Bilder des Honigs & von den Waben sind sensationell.

Otto Kapfinger / über die website vom Ernst Hiesmayr

Die Webside ist wirklich gut und zählt zum Besten, was ich je gesehen habe - nicht nur inhaltlich sondern vor allem auch in der sehr ansprechenden Art der Darstellung, der Aufbereitung.....

Peter Fasching, Prim. Univ.-Prof. Dr. / Präsident der AKE (Arbeitsgemeinschaft Klinische Ernährung) / über Recommender-Design

Von Optik und Aufbau bin ich wirklich total begeistert !

Helmut Kronberger, Psychodrama Austria

Vielen Dank nicht nur für deine tolle Gestaltung, sondern auch für das intensive Mitdenken und die so hilfreichen Vorschläge, super!!

Fritz Hinterberger, UniNETZ SDG 8, Club of Rome Austria, Earth4All

Es ist eine Freude mit Dir zu arbeiten!
